Background

The Colorado Historical Society was established in 1879 and is headquartered at the Colorado History Museum in Denver. As the designated steward of Colorado history, the Colorado Historical Society aspires to engage people in our State's heritage through collecting, preserving, and discovering the past in order to educate and provide perspectives for the future. This educational institution contains History Colorado, the 12 museums and historic sites across the state, its public programs and services; the Office of Archaeology and Historic Preservation, the Stephen H. Hart Research Library, and administers the State Historical Fund, a preservation-based grants program funded by limited stakes gaming tax revenues.
